2. Only fish shot between dawn and the weigh in time of the day can be entered for that day.
3. It is important that all weed be cleared from boats, trailers, fish bins etc and not brought to the weigh-in site as several pest species such as alligator weed are present in Waikato lakes and rivers.
4. Please use the official bins provided and have your fish counted and in bins before they come to scale.
5. Competitors will be asked to supply their team name or entry name, total number of koi carp shot (individual totals, not team total) and general location of their hunting area (ie name of lake or river).
6. All competitors to be present and assist in the weighing of their fish. All fish will be weighed in bulk except for any fish that could qualify for an individual prize.
7. The team who have just weighed their fish are to assist the next group.
8. No fish are to be taken away from the site except by the authorised disposal agent.
9. Anyone arriving after the close-off times may still have their fish weighed so they can be included in the overall carp classic tally, but these fish will not be eligible for individual or team totals.
10. **Judges decision will be final.**
11. At the end of the event competitors will be asked to assist with cleaning up the site and disposal of fish.
12. Your weigh in form will be used for the gathering of statistics and as your official claim form for the total number of koi carp shot (so please keep your own personal tally even if you are shooting in a team). However if you have shot any other types of fish you will need to claim them separately.
